

PRESS RELEASE

of EGS Automation GmbH in June 2024

Hands-On Robotics at the Robotics Day of wvib Schwarzwald

Cost pressure and the continuing shortage of skilled labor are increasingly highlighting the importance of automation solutions in industrial production. Thanks to improved technology, robots are now economical even for small batch sizes!

At the Robotics Day of wvib Schwarzwald AG, you will have the opportunity to meet solution providers. In various presentations, you will gain practical knowledge for your individual entry into automation with robots, and learn about the differences, advantages, and disadvantages of cobots and robots. In addition to speakers from Offenburg University, Yaskawa Europe, and J. Schmalz GmbH, robot expert Heiko Röhrig from EGS Automation, a brand of AMETEK, will highlight common mistakes when starting with robot automation and will be happy to assist you with any questions about your current project. Sign up now!

When: July 10th, 2024 / 09 am – 05 pm

Where: Work-Life Robotics Institute, Offenburg
